

SEPTEMBER BULLETIN

Well we barely made it thru August, and with September usually being the last of the full hot months before tapering down a bit in October I can only remind you of your forced air cooled Veterans Club with beverages, bands, karaoke and the all important 6 Big Screens of football madness with the NFL channel at your control... so stop in, cool off and enjoy a game or 3 with your fellow Veterans in your own Canteen. Trish's Football Funday will not disappoint, with an occasional surprise raffle, and her own specialty food line-up, you will leave with a full belly, a saturated liver, and a well maintained core temperature courtesy of our forced air cooled Canteen! With our tournament looming and sold out in record time, I can only ask you to participate in our biggest yearly fundraiser by sponsoring a hole for yourself or even thanking the Veteran that made you eligible to be a member, especially if they are no longer with us, Sponsor one in their name. All donations are very appreciated and go towards the maintenance and upkeep of our nearly 100 year old building and memorial. Thank You!!!!

September 16th under the guidance of Robert Marlow the SALS will be having breakfast from 9:30am till 12:00pm so come have some groceries and football at your Veterans Club!!!

And now it is that time of the month, Yes my loyal movie goers it is time for "Critics Corner" where you find out the answer to what bothers us all, "To see, or Not to see... That is the question." Starting with the comedy "Crazy Rich Asians"... a Cinderella story that had a tear in this movie goers eye. Although somewhat predictable, a few twists pop up along with some funny characters. Truly a feel good movie and very easy to watch, I believe this teeters heavy towards a win on the viewing scale. Next up, "Mile 22"... a Mark Wahlberg action movie, what can I say except 22 miles is the distance you should keep between you and this movie. 80% of the movie is abig gun fight in 3rd frame form, which means the fight and gun scenes are all shown every 3rd frame so they look choppy and faster to avoid the look of a choreographed fight. Since there is so much of the movie shot like this you will probably leave with a slight headache, still don't know what exactly the plot was supposed to be but there it is. And to complete the triple play there is "Alpha"... the story of bonding between a boy and wolf for a common good. Very Very important to know the entire movie is in subtitles, so if you are planning to veg out and not use the frontal lobe of your brain, forget it... you need to read the bottom of the screen... And now for your monthly ratings of the reviewed shows. "Crazy Rich Asians" 3 ½ popcorns--- "Alpha" 2 popcorns--- "Mile 22" a generous 1 popcorn. It has been fun to hear the feedback of your Clubs ongoing movie critiques that are out each month for the people that go to the Big Picture Shows. I am always asked, "Hey Mr. Corner, what is the biggest bang for our buck out there in movie land?" I always respond the same, "Let me tell you junior movie goer, Grossmont Movie House is very good on their prices as well as keeping their air nice and cool" A matinee ticket is running \$7.00 with an \$8.50 charge for the TitanXC Theater, where the others range from \$8.50 matinee all the way to \$13.75 for the specialty theaters. Also the groceries offered at Grossmont are mostly on the favorable side, avoid the personal pizzas, and the white castle sliders though the before and after experiences have much to be desired. The big pretzel is highly recommended, tell them you want it {Corner Style}, that is extra salt with a medium coke kicker. Do not go for the upgrade to a large, the difference is only 2 ounces, if you want the extra couple ounces of soda put in less ice. And there's my tip of the day... Now as I slide my soapbox/movie seat back into the closet till next month, don't forget to take your vitamins, say your prayers and I'll see you around the corner and in the isles.

Lenny
